

GRABEK GLOBAL

Investing in a
sustainable
future.

REAL ASSETS / DIGITAL INFRASTRUCTURE

Participation plans, partner opportunities
and responsible development.

CORPORATE BROCHURE | OCTOBER 2026

Grabek-Global

A broader view of Grabek Global

Company & operations	Participation & partnerships
03-06 AUM, profile, mission and sectors	14-17 Participation, Hash and Field plans
07-09 Forestry, computing and energy	18-20 Referrals, ranks and rewards
10-13 Impact, community and team	21-22 Onboarding and controls
23 Commercial partnerships	24-25 Offices and contact

Assets under management

MANAGEMENT-REPORTED INFORMATION

\$121

BILLION USD

Financial figures and company results are presented as supplied by management. Sustainability indicators are management-reported annualized values.

Basis of presentation

The USD 121 billion AUM figure is management-reported information supplied for this brochure.

Physical assets + infrastructure + technology

Grabek Global presents a diversified platform connecting natural resources, energy, digital infrastructure, climate solutions and investment opportunities.

20,000+

Mining devices reported

60 MW

Energy infrastructure reported

200 MW

Expansion capacity reported

Mission, vision and commitment

Mission

Advance responsible forestry and mining with environmental care, economic development and sustainable value creation.

Vision

Balance productive resource use with lasting sustainability, innovation and community benefit.

Six areas of strategic focus

Timberland

Working forests, harvest cycles and land stewardship.

Bioenergy & biomass

Renewable feedstocks and wood byproduct utilization.

Utility solar parks

Photovoltaic infrastructure and grid connections.

Carbon capture

Atmospheric carbon capture technologies.

Digital mining

ASIC hardware, cloud participation and immersion cooling.

Conservation

Habitat protection, wetlands and environmental restoration.

Forests managed across their full life cycle

Grabek Global describes an integrated forestry model combining commercial production, regeneration and ecological care.

Land planning and preparation

Seedling development and precision planting

Growth monitoring and sustainable harvesting

Reforestation, habitat protection and soil care

Digital computing and operational resilience

Grabek describes industrial computing operations supported by ASIC equipment, power distribution, immersion cooling and continuous monitoring.

Its operating framework emphasizes electrical redundancy, load balancing, hardware diagnostics, network resilience and controlled physical access.

Facility descriptions are company claims. Ownership, contracted access, measured hashrate and site capacity are not independently established here.

Clean power and productive land use

500+ MW pipeline

Company-reported renewable development pipeline; this is not a statement of commissioned generation.

Grid and storage integration

Solar, onshore wind, substations and battery storage feature in the published strategy, alongside environmental siting and long-term commercial agreements.

Four priorities for long-term value

Protect natural capital

Care for forests, water, soil and biodiversity.

Strengthen communities

Support employment, local suppliers, education and infrastructure.

Build climate resilience

Connect renewable energy, forest carbon and watershed protection.

Create sustainable value

Balance commercial objectives with environmental and social outcomes.

Published approach: assess context, set priorities, implement, measure, improve and scale.

Community recovery and resilience

The community programme describes support for shelter, medical services, clean water, essential supplies and shared infrastructure, alongside rural livelihoods and ecological restoration.

Homes & health

Housing rehabilitation, emergency care and essential medicines.

Water & livelihoods

Sanitation, access routes, local work and contractor opportunities.

Nature & resilience

Restore habitats and strengthen preparation for future disruption.

Management reports \$82M+ in grants since 2022 and restoration areas of 307 and 322 acres in Louisiana. These are company-reported figures.

Our management team

Luc Geroge

Chief Executive Officer

**Alexander Friedrich
Weber**

Chief Financial Officer

James Edward Harrington

Chief Operating Officer

Sebastian Klaus Richter

Chief Investment & Strategy
Officer

**William Charles
Beaumont**

Chief Risk, Compliance &
Governance Officer

People behind the platform

Executive leadership

Finance, operations, investment strategy and governance bring complementary responsibilities to the management team.

The leadership structure connects strategic direction with capital planning, project delivery and operational oversight.

Choose the relevant programme category

Short-cycle plans

Published 12-, 24- and 36-day tiers tied to liquidity, algorithmic allocation and market-making syndications.

Hash & Field

Mining computation packages and forestry participation packages with separate schedules.

Institutional access

Benchmark debt, sustainability financing, private placements and structured notes for eligible participants.

Published short-cycle daily yield tiers

USD amounts | Participation schedule

Plan	Period	Participation range	Published daily rate
Intraday / IT Standard	12 days	\$50 - \$500	0.90% - 1.35%
High Frequency / HF Strategic	24 days	\$500 - \$5,000	1.30% - 1.75%
Market Making / MM Institutional	36 days	\$5,000 - \$50,000	1.60% - 2.15%

Participation rates are shown above.

Hash power packages

Package	USD value range	Estimated daily yield
Hash 1	\$50 - \$999	0.8% - 1.1%
Hash 2	\$1,000 - \$14,999	1.4% - 1.6%
Hash 3	\$15,000 - \$35,999	2.0%
Hash 4	\$36,000 - \$10,000,000,000	3.1% - 3.5%

Field packages

Participation schedule | Estimated daily revenue

Package	USD value range	Estimated daily revenue
Core	\$5,000 - \$19,999	2.4% - 2.5%
Green Field	\$20,000 - \$39,999	2.8% - 2.9%
Brown Field	\$40,000 - \$500,000	3.0%

Published duration choices: 2, 6 or 12 months.

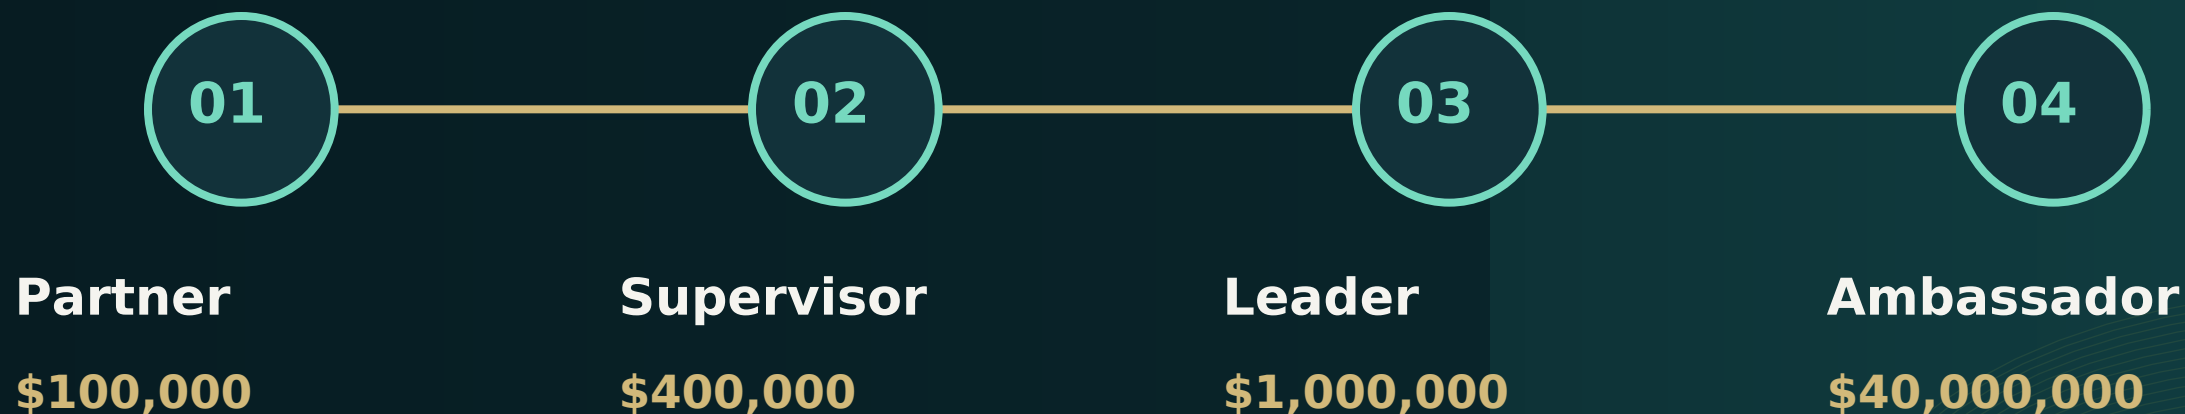

Five-level referral commission schedule

Network level	Commission rate	Relationship
Level 1	5% - 8%	Direct referrals
Level 2	3.0%	Second generation
Level 3	1.5%	Third generation
Level 4	1.0%	Fourth generation
Level 5	0.8%	Fifth generation

The affiliate programme sets a 5%-8% rate at Level 1. Confirm the applicable direct rate, calculation base, reversals and eligibility. Programme terms state that no compulsory personal deposit is needed.

Recognition based on structural turnover

STRUCTURAL TURNOVER MILESTONES

Thresholds measure qualifying network activity rather than a required personal investment. Programme terms specify zero mandatory personal capital.

How turnover and recognition work

Structural-turnover calculation

Add eligible completed transactions, then subtract refunds, cancellations, chargebacks and reversals. Count each transaction once; exclude duplicate records and internal transfers.

Published reward categories

Preferential alliance terms, co-investment privileges and executive milestone awards; specific awards depend on initiative terms.

Transparency and qualification

Programme terms provide published rules and prospective changes. Example: $\$125,000 + \$280,000 = \$405,000$, above Supervisor level. Specific award details depend on the applicable initiative.

Your participation journey

01 Register

Create your Grabek Global account.

02 Select a plan

Choose a participation plan for your portfolio.

03 KYC verification

Not compulsory.

04 Portfolio starts earning

Earnings begin according to the selected plan terms.

Registration: grabek-global.com/Auth/Register

Custody, records and access to documents

Published control architecture

The company describes separation of duties, multiple approvals, daily reconciliation, audit trails, access controls and continuity planning.

Information requests

Stakeholders can request specific records. Published stages cover submission, review, processing, response and appeal, with a target of 20 business days.

Business financing and project collaboration

Private-sector services include corporate financing, support for entrepreneurs and SMEs, eligible individual loans, institutional partnerships and infrastructure ventures.

Business applications

Working capital, equipment, technology upgrades and approved expansion; subject to credit and due diligence review.

Partnership process

Inquiry, eligibility review, supporting documentation, financing structure, formal offer and agreed disbursement.

Offices and Regional Desk

Location	Published address / locality
United States / headquarters	2020 Carey Avenue, Cheyenne, Wyoming
Canada / North America desk	Markham, Ontario
United Kingdom / regional desk	Great West House, Great West Rd, Brentford TW8 9DF
Luxembourg / financial services	32-36 Bd d'Avranches, 1160 Bonnevoie-Nord-Verlorenkost
Armenia / regional representation	15 Movses Khorenatsi Street, Yerevan 0010
